
a
RB24_261109_1506: matched contrasts (+-1.96 x shift-null SD; filled = p < 0.01)
anticipatory vs early wait, both in time-out waits
anticipatory vs early wait, both in square waits
anticipatory (time-out) vs early wait
anticipatory (square) vs early wait
anticipatory: square vs time-out
reward bout vs early wait
reward bout vs anticipatory (time-out)
post 3-6 s vs early wait
post > 6 s vs early wait
post 3-6 s vs reward bout
PRE-bout (-2..0 s): anticipatory vs early wait
PRE-bout: reward vs early wait
PRE-bout: post > 6 s vs early wait
silent time-out (0..3 s after) vs random wait time
before a time-out (-3..0 s) vs random wait time
free pump vs no pump (lick-free 0..0.8 s)
all signal-like
